

PROTECThear

PROTECThear inserts are custom moulded soft silicone earpieces, individually crafted under the strictest conditions from an exact impression of the user's ears.

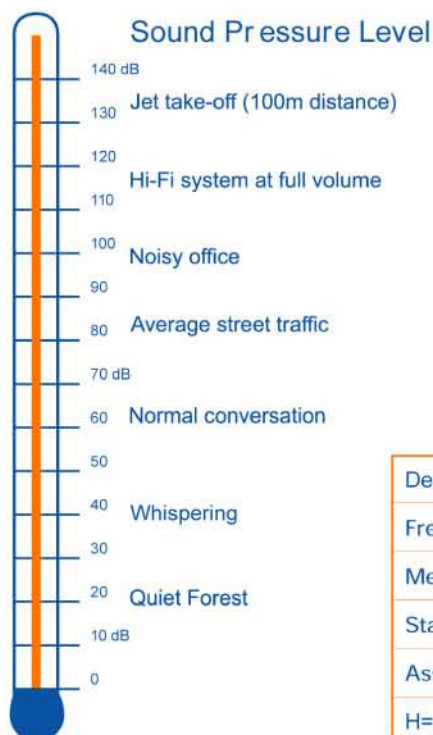

Each pair is manufactured using specially formulated medical grade silicone, to offer the highest degree of comfort whilst providing a highly effective acoustic barrier.

Available in yellow, flesh, blue and transparent colours.
CE marked & tested to EN 352-2: 1993

- Super soft material
- Ideal for restful nights
- Comfortable design
